

***TOGETHER
SCIENCE
CAN***

**Action kit for individuals
and teams**

WHAT IS TOGETHER SCIENCE CAN?

Together Science Can has been started by organisations from across the world to celebrate and protect international collaboration.

Science can solve some of the world's most complex problems, but only when the best ideas are brought together.

International collaboration is happening more than ever and is vital to the work of research organisations from across the world. The actions, policies and attitudes of governments shape research culture. The time is now to join together and speak as one.

That's where Together Science Can comes in. It provides a place for researchers to tell their stories and ensure they have a voice when decisions are made about how they should work together.

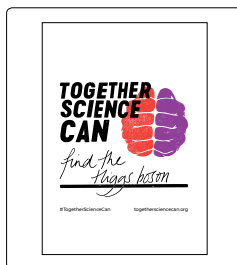

HOW CAN I GET INVOLVED?

You can get involved with Together Science Can in whichever way suits you. On the next page are six ways you can show that #TogetherScienceCan

SIX WAYS YOU CAN SHOW THAT #TOGETHERSCIENCECAN

1. SIGN UP TO KEEP IN TOUCH

Join Together Science Can and we'll send you well-timed news and ideas for how you can support Together Science Can. We won't share your email address with anyone else.

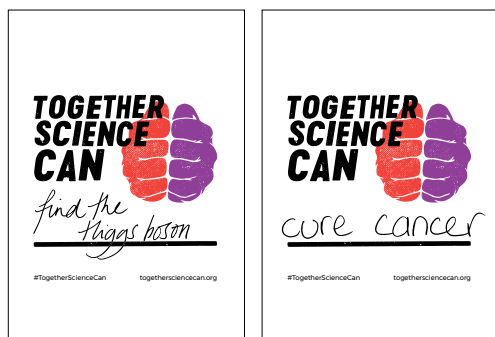

2. FORM A CHAIN

Together Science Can has created its own hand gesture, so you and your team can show support for the campaign. The chain of people created helps to show how people share knowledge

3. CREATE A POSTER

Customise and share your message by printing our #TogetherScienceCan downloadable poster, filling it out and putting it on your wall.

4. THANK SCIENCE

Next time you present at a conference or event you can use Together Science Can template slide to thank all those people involved in your research.

5. COLLABORATE

Keep the movement going. When you post about **#togethersciencecan**, tag your friends and encourage them to share their story.

6. USE THE HASHTAG

If you read an exciting or inspiring article or journal paper, share it with the **#togethersciencecan** hashtag.
